# Generative AI Workshop

Duration: 6 hours

## Rules for Workshop

### 1. Ethical Usage:

Utilize Generative AI tools responsibly, refraining from creating or sharing content that may be offensive, harmful, or in violation of ethical standards.

### 2. Privacy Awareness:

Exercise caution regarding privacy when working with data and generating content, avoiding the use of personal or sensitive information without proper consent.

### 3. Respect for Intellectual Property:

Acknowledge and respect the intellectual property rights of others, including those who create AI models and datasets. Obtain permission before using or distributing models or data.

### 4. Transparent Communication:

Foster open and transparent communication about the methods and tools used during practical exercises. Share insights and challenges with fellow participants.

### 5. Collaborative Learning:

Cultivate a collaborative learning environment by actively sharing knowledge, insights, and experiences. Encourage discussions that deepen understanding of technical and ethical aspects in Generative AI

### 6. Adherence to Workshop Guidelines:

Follow the guidelines and rules established by workshop organizers, including the code of conduct. Promptly report any violations or concerns to the organizers.

### 7. Constructive Feedback:

Offer constructive feedback to organizers and facilitators, focusing on both technical content and ethical considerations. Share insights that can enhance the overall learning experience.

## 8. Continuous Improvement Commitment:

Demonstrate a commitment to continuous learning and improvement. Stay informed about ethical guidelines, advancements, and best practices in the realm of Generative AI.

## 9. Supportive Atmosphere:

Contribute to fostering a supportive and inclusive environment where all participants feel at ease expressing their thoughts and seeking assistance.

## 10. Respect for Diversity:

Acknowledge and respect the diversity of perspectives and experiences within the workshop. Be receptive to learning from the diverse backgrounds of fellow participants.

## 11. Professional Conduct:

Uphold a professional demeanor throughout the workshop, treating both facilitators and participants with courtesy and respect.
